

## Cited patent searching

Cited patent numbers are searched in the Referenced Patent Number (/RPN) field.

**Find patents citing the U.S. patent 425531 and its equivalents.**

- 1** Enter FSEARCH (Family SEARCH) in appropriate databases to find a family of equivalent patents.

Answer set (L4) is created for the patent family.

- 2** Enter the databases containing cited patents.

- 3** TRANSFER patent numbers (PN) from the multifile answer set L4 and search them in the Referenced Patent Number (/RPN) field of the current databases.

- 4** Remove duplicates from L6 with DUP REM.
